KENTUCKY is just now a fine field for life insurance business.

If the Cincinnati mob that visited TOM CAMPBELL'S house in March, 1884, had found that distinguished scoundrel at home, he would today be shoveling coal—and wishing he was the ice man.

"FREE bread funds for the poor" seem to have passed away with COX'S army. It was in 1894, under a Democratic Low Tariff, that the lamp-post in New York's streets were decorated with such signs and with contribution boxes to receive the funds. At the same time the great New York Democratic dailies were collecting free clothes for the men who were unemployed under Free-trade.

SPEAKING of the funnygoings practiced by the Goebelite State Election Commission at Frankfort, the Hon. GREEN R. KELLER, Democrat, has this to say in The Carlisle Mercury: "One day they decided that JOHN HENRY WILSON had been elected Judge of the Circuit Court by seventy-five votes cast for him in Knox county—not another county in the District cast any votes,—and the next day they decided that the election so far as it applied to state office was invalid on account of the thin ballots used."

"They threw out the entire vote of Jefferson county, so far as to state officers but let it count so far as it applied to the City Council, Police Judge, Senators and Representatives. There was never so much partiality in any civilized community. [Now cuss.]"

You see, BOB, KELLER, "the King can do no wrong;" and every fellow who wears a Goebel collar is a King—for the present at least.

It is supposed that any officer of the law is always certain of his premises before he makes a baldheaded statement. If he is not, he must assuredly should

About Bob's Black Bean, be. And especially should this be the case when the officer is a Commonwealth's Attorney, and when he is receiving a chain of evidence which is to determine the fate of a fellow human being—or perhaps half a dozen fellow human beings.

Up in Frankfort they have a fellow named FRANKLIN—ROBERT FRANKLIN, to be polite,—whom the people of Franklin county have ended with the office of Commonwealth's Attorney. Judged by the nomenclature of his surroundings, this official ought at least to be "frank;" and he is, to the extent of making no disguise of his purpose to convict somebody of killing MR. GOEBEL.

A few days ago he set about formulating a lot of evidence upon which a number of persons might be arrested; and THE LEADER was at pains to procure a copy of The Cincinnati Enquirer—which cannot tell a lie—that it might be sure to make a misstatement of fact in regard to the minutest detail.

THE LEADER chooses to term this "BOB FRANKLIN'S Black Bean Story;" and to insure it against escape a neat garden fence has been built around it.

Here it is, just as it appeared in The Cincinnati Enquirer of Saturday, March 10, 1900:

"A letter introduced by Commonwealth's Attorney ROBERT FRANKLIN today contains the information that before his death a few days ago BOB FRANKLIN, Sheriff of Breckinridge county, sent to members of his family that he was in Frankfort when GOEBEL was shot, and that he had knowledge beforehand that he would be assassinated."

"According to the letter, BERTRAM said that on the night previous to the shooting of Senator GOEBEL about twenty-five picked men gathered in the office of the Secretary of State and put a quantity of beans in a box. The beans were all white save one, which was black. The man who drew the black bean was the man who would fire the shot. The letter does not say whether or not BERTRAM named the man who drew the black bean."

There you have it! That's the sort of "evidence" upon

which TOM CAMPBELL and company are causing the arrest of gentlemen, and upon which they propose to "legally" hang somebody, as threatened by Mister JUSTUS GOEBEL! Consider, please—A letter, written by a nameless somebody, says that just before he died—what a pity that he is dead—a certain Sheriff told his family that he knew all about the killing of Mr. GOEBEL the day before he was killed; and then he goes on to tell of the 25 picked men and the picked beans.

What a likely story, to be sure! There's nothing in Munchausen that can hold a tallow dip to it.

It is well that the late lamented Sheriff BRASSKNOBS BERTRAM held the number of picked men down to 25—for if he had stated a greater number engaged in such a delicate undertaking might have given him the "horse laugh;" or said he was doing some pretty tall lying.

And there's another point upon which THE LEADER would like to be more fully insured. Sheriff BRASSKNOBS BERTRAM says all those beans were white beans, except one poor little lonesome bean which was a black bean!

Now, mightn't Sheriff BRASSKNOBS BERTRAM be mistaken? Mightn't it have been a red bean? Black beans are "black," while red beans are more plentiful.

THE LEADER wants this fact established, and calls for that bean and its submission to the Bean Bureau of the Garden Seed Department at Washington.

To conclude—What a blooming pity that Sheriff BRASSKNOBS BERTRAM didn't tell his bereaved family the name of the lucky man who drew such a pretty little package as that lonesome little black—or red—bean! Commonwealth's Attorney BOB FRANKLIN and his Black Bean Story deserve to go wobbling down the corridors of Time hand-in-hand with "Jack and the Beanstalk" and the other fellow who struck BILLY PATTERSON.

Messrs. George G. and Carol Hamilton, the tobacco kings of Bath county, will cultivate 200 acres of the weed this year.

## UNDERSTANDING.

The Threatened Civil War in Kentucky Over Election Contests Has Been Averted.

### CONFERENCE AND AGREEMENT REACHED

Taylor Will Continue to Act as Governor Until the Courts Finally Decide the Disputed Case.

In the meantime Beckham Will Make No Move Toward Securing Possession of the State Buildings—Legislature Adjourns.

Frankfort, Ky., March 14.—The legislative committee adjourned this afternoon. A conference between Adj. Gen. Collier and Castleman resulted in a perfect understanding being reached. Taylor will continue to act as governor. Beckham will make no move toward securing possession of the state buildings until after the court of appeals has decided the disputed governorship. The legislature adjourned \$100,000 for the use of Beckham in reorganizing the state militia. This is in the situation in Kentucky politics.

Among the more conservative element in each party the opinion prevails that the worst is over, and that when the court of appeals reaches its decision danger of civil war in the commonwealth, which has been terribly imminent, will entirely pass away. To the democratic leaders, with a full understanding of the situation, only one cloud appears on the political horizon, and that is Taylor's future course. The legislature will not outline a plan of action beyond the statement which he made that he would "continue to act as governor." Republicans in Taylor's confidence, however, say that he will remain at Frankfort in the discharge of his duties until the court of last resort has passed upon the question at issue. Then, if the decision be against him, he will step out at once and turn over the state buildings to Beckham. The republicans will make every effort to carry the dispute into the federal courts, in case the decision of the court of appeals, the supreme court of Kentucky, is against them; but, failing in this, they will consider the question settled, though still believing a great wrong has been done.

On the other hand, the democratic leaders assert they will cheerfully abide by the decision of the court of appeals. But, should the decision be in their favor, they will insist on occupancy of the state buildings— "peaceably if possible, but forcibly if necessary." But not until that decision is rendered will further action be taken.

This much was decided at a conference between Adj. Gen. Collier and Adj. Gen. Castleman, which lasted several hours and at the end of which a perfect understanding in regard to the situation was arrived at and a tacit agreement made to allow matters to remain in statu quo until the court of appeals has rendered its decision. By this the republicans understand no further arrests will be attempted and no prosecutions made of the state officials or the state militia serving under Taylor.

### MILITARY CONFLICT.

Col. Williams, of the 22nd Regiment, State Guard, Coming Home on Account of a Death.

Lexington, Ky., March 14.—The death of Ephraim D. Sayre may complicate the local situation. He is a brother-in-law of Col. Roger D. Williams, of the 22nd regiment, state guard, and Williams, who, some assert, has been staying away from Lexington to avoid the complication that his presence would precipitate, will doubtless be called back on account of Mr. Sayre's death.

When he returns, by virtue of his position, he is in command of the local troops, and should Capt. Longmire refuse to recognize his authority and give up his arms, which he intimates he will do, a direct conflict between the republicans and democratic members of the state guard will in all likelihood ensue.

### Another Arrest Made.

Frankfort, Ky., March 14.—Gabriel A. Taul, of Hardinsburg, was brought to Frankfort in the custody of the sheriff of Hancock county. Taul was arrested for supposed complicity in the assassination of William Goebel. The sheriff and the police officers have refused to give out any information in regard to the arrest. It is learned, however, that Taul was not in Frankfort at the time of the shooting, and that his connection with the crime, if any, is only indirect. Taul was not taken to jail, but spent the night at the Capital hotel in charge of an officer.

### Grand Jury Will Investigate.

Lexington, Ky., March 14.—Judge Parker, of the Fayette circuit court, called for the grand jury now in session and gave it a lengthy charge, in which he urged that the removal of Powers and Davis from the jail Sunday morning by irregular and alleged illegal process be fully investigated, and the guilty parties, if any, be indicted. Summons were immediately sent by the grand jury to Sheriff Butler to bring before the grand jury, to appear before the grand jury here Saturday. Other local officials connected with it have been summoned.

## SICK CHINAMAN ON BOARD.

Three Yonkers Boatsmen San Francisco From the Orient Are Detained at Quarantine.

San Francisco, March 14.—Three steamers which arrived from the Orient have been placed in quarantine, the Gaelic, the Duke of Fife and the Charles Nelson.

On the Gaelic one of the Chinese crew was sick, some of the symptoms resembling those of plague. Some of his blood was irrigated with carbolic pig. Should no evil results follow, the steamer will be released in a day or two.

The Charles Nelson brought a cargo of sugar from Ma-Wa-Wai, Hawaiian islands. There have been no signs of the plague there, but Dr. Kinyoun would take the chance.

The Duke of Fife was from Manila. She brought two cabin passengers and the remains of 33 soldiers. She had a clean bill of health from Japan.

### FRENCH JUSTICE.

A Boston Lawyer Given Judgment in a Suit Against the Grand Hotel in Paris.

Paris, March 14.—The court before which the case against the Grand Hotel in Paris was tried delivered judgment in favor of the Boston lawyer named Burdett in a suit against the Grand Hotel. Burdett had brought the case against the hotel on the ground that the hotel had failed to pay him \$1,000 francs as a reward from the owner, whom he said he had discovered. Mr. Burdett inquired and found the story was untrue, and the secretary was trying to cheat him of his treasure trove. The court has now ordered the Grand Hotel to pay Mr. Burdett the whole amount and the cost of the proceedings.

### Socialists Will Celebrate.

Berlin, March 14.—Next Sunday the socialists will celebrate at various meetings the revolution of 1848, decorating the graves of the victims.

## BLOEMFONTEIN.

Gen. French Has Arrived at the Orange Free State Capital With His Forces.

### NO DETAILS HAVE YET BEEN FURNISHED

Lord Roberts Makes No Report and May Doubtless Be Fully Occupied in an Engagement.

Boer Army Between Two British Forces and Escape Is Almost Impossible, Which Means Either a Battle or a Surrender.

Cape Town, March 13.—Evening.—Gen. French has arrived at Bloemfontein.

London, March 14.—The brief dispatch from Cape Town announcing that Gen. French has arrived at Bloemfontein may mean that Gen. French has entered Bloemfontein merely that he is in the environs, thus belatedly confirming Lord Roberts' previous advice.

Nothing can be said of the advance on Bloemfontein beyond Lord Roberts' own dispatches. Nothing more has been permitted to come through. Doubtless Lord Roberts himself is fully occupied with important military operations.

Lord Roberts' messages may mean either that the Boers have cut the railway to the north or that the British cavalry have done so. If the former, then it may be assumed that the rolling stock has been seized, but by general assumption the latter interpretation is regarded as correct. This would greatly facilitate obtaining supplies from Orange river—an important matter, as Lord Roberts' line of communication is cut.

### LORD ROBERTS AND LORD KITCHENER.

AT THE FRONT IN THE ORANGE FREE STATE.

A communication at Modder bridge is now 110 miles long.

The Boers may make another fight, but there is little doubt that Lord Roberts will soon occupy Bloemfontein. The Boers retiring from Orange river will find themselves between two British armies, and their guns are almost bound to fall into the hands of the British, while the occupation of the capital of the Free State will strain the alliance of the two republics to the utmost.

The government will not allow the Kruger-Steyn appeal to influence in any way their determination not to spare any effort to prosecute the war. There will be no diminution of measures calculated to maintain the full efficiency of the field force, and whatever reinforcements were previously considered advisable will still be sent.

Lord Salisbury's reply meets with unanimous approval among conservatives, and it is the universal opinion that the Boers, by their extravagant claims and canting tone, meant to inflame foreign powers, have again overreached themselves.

### Latest News From Kimberley.

London, March 14.—The Daily Mail, dated Tuesday, March 13: "Lord Methuen occupied Poshof on Sunday without opposition. He left a garrison there and returned here. The railway and telegraph lines have been repaired 20 miles northward to Stryk Slip. It is expected that the Boers' forces arrived here on Sunday. The Boers had retired the previous night, taking up a position four miles beyond the Orange river, where Gen. Brabant attacked and drove them back, securing the position after a sharp engagement."

### Col. Plumer at Lobatse.

Cape Town, March 14.—Col. Plumer occupied Lobatse without opposition on March 13. The Boers had retired the previous day. The railway is damaged, but can be easily repaired.

### Barkly East Recaptured.

Herschel, Cape Colony, March 13.—The Cape mounted police have recaptured Barkly East.

## FINANCIAL BILL.

Secretary Gage Explains Some of the Provisions of the Newly Enacted Measure.

Washington, March 14.—Secretary Gage made the following statement in explanation of the provisions of the financial bill which passed the house:

"The financial bill, which now awaits only the signature of the president, is, I believe, the first object what its title indicates, the fixing of the standard of value and the maintaining at a parity with that standard of a parity with money issued or coined by the United States. It reaffirms that the unit of value is the dollar, consisting of 25.8 grains of gold, nine-tenths fine, but from that point it goes on to make it the duty of the secretary of the treasury to maintain all forms of money issued or coined at a parity with this standard. It puts into the hands of the secretary ample power to do that."

### New National Military Parks.

Washington, March 14.—The house military committee ordered favorable reports on the bill to establish national military parks on the sites of the battles of Fredericksburg, Salem Church, Chancellorsville, the Wilderness and Spotsylvania Court House in Virginia; also a bill to establish a national military park at the battle field of Stone river, in Tennessee. Both parks are to be laid out by a commission.

### STRIKE IN PORTO RICO.

Workmen on the Military Road Now Want Fifty Cents a Day Instead of Forty Cents.

San Juan, Porto Rico, March 14.—Another strike is on among the workmen on the military road in the Arica division. Hitherto the men have been paid 40 cents a day, and they want 50 cents. Six hundred left work, but so far they have been orderly and are not organized.

### COLOMBIA REVOLUTION.

It Is Believed That It Will Last for a Year, and a Food Famine Is Threatened.

Kingston, Jamaica, March 14.—The latest news from Colombia is to the effect that the revolution will last for the next 12 months, as the government is obstructing the liberals in every conceivable way, and at the same time adding much to its treasury, business as is at a standstill in every part of the republic, and there is very little foodstuffs on the market.

It is reported that on March 4 a quarrel broke out on duty at Cartagena, when the former struck the latter's head with his sword.

A letter from Sergeant Julius S. Degman contains the following:

MAYFIELD, P. L. Jan. 17, 1900.

I received my first letter from home today since leaving New York. We entered Manila January 9th and were quartered in some old Spanish barracks built of bamboo and pleasantly situated on a shady driveway. Our week's stay here was pleasant after our long voyage. January 13th we began our march Southward. We march five or six miles a day. We aim to drive the insurgents South and Eastward. We are marching through a level country, but can see mountains towards the interior. Bamboo grows everywhere—tall and slim with leaves something like those of the black willow. The natives are small, very few of them weigh over 100 pounds, yet they can carry enormous loads on their backs or heads. They all, men, women and children, smoke. Their houses are built of bamboo, consisting usually of but one room and a porch. They live on rice, bananas and coconuts, which is some kind of a mixture they put up. Our most troublesome enemy at present is the mosquitoes; they go in regiments and brigades and charge on us every night. The insurgents have one advantage over us and that is ease in crossing the jungles. They dodge through them without any trouble, while we are obliged to take more time. I have no charge of advance guard today. At last I am actually on the firing line, with a chance to be shot just any old time. Write soon to your soldier boy.

JULIUS S. DEGMAN.

Does It Pay To Buy Cheap?

A cheap remedy for cough and cold is all right but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do for a warmer and more regular climate? Yes, if possible if not you can get it, then in the case take the only remedy that has been introduced in all civilized countries with success in acute throat and lung troubles, "Rocher's Liver Man" Syrup.
